Important Notes for Parents & Teachers

- **Daily study routine:** A Class 10 child needs about 3 to 4 hours of focused study after school, ideally split into short blocks with breaks.
- **Reading habit:** Daily independent reading in both English and Hindi improves comprehension and writing dramatically.
- **Math practice:** Regular practice of current topic and mental maths is essential.
- **Continuous assessment:** The school follows continuous evaluation - classwork, projects, oral and written tests all matter, not just final exams.
- **Parent involvement:** Regular communication with class teacher and reviewing homework helps the child stay on track.
- **Source:** This plan is based on the NCERT 2025-26 textbooks and the CBSE curriculum framework. Always cross-check with the school's specific scheme of work, which may vary.
